

Thesis C Report Assessment Components

There are four assessment components:

1. Background, project description & significance, and literature survey (20%)
2. Execution of the project, quality of analysis and discussion of results (50%)
3. Conclusions and value added (20%)
4. Document Presentation (10%)

Your report should follow the following structure:

1. Background and project description.
2. Literature Survey
3. Detailed descriptions of your solution to the project and results
4. Conclusion.
